## ~Iroha ni Oedo

Player: 3-6

Time: 30-60min.

Age: 10+

It's trick-taking game.  
You must follow the color,  
not only lead but also  
played on trick.

### Component

card: 60(12x5 colors)

Trump card: 1

Summary card: 3

※You also need Scoring Counter  
(Pen and paper, Chip, or Scoring APP, etc.)

### Set up

look cards and separate cards hex icons  
more than players right-down on cards,  
back to box them.

each game use 2x players each color, sum  
10x players.

### Icon

Player# 3-6 4-6 5-6 6

Search summary card matching player nums  
and display the players on Center of table.  
Player who look the sunset or sunrise nearby  
is first dealer.

### Game Progression

Iroha ni oedo plays some(equall number of  
players) deals.

Each deal acts "deal cards" "pass  
cards" "play" "scoring".

### Deal cards

Dealer collect all cards and shuffle,  
and deal 9 cards face down to each  
player.

Remain cards(=player#) are put Center  
face down.

### Pass cards

Each player look dealt card for  
hands, and select 2 cards and pass  
left player.  
after passing, you take 2 cards left  
player passed(so each player has 9  
cards).

### Play

Each deal play 9 tricks.

First lead is left player on dealer.

After lead, play clockwise.

Lead may play any card, and set Trump card  
next to played card.

Other player play below rule.

1. If you have the card match the color with  
played this trick, you must play one of  
them.

ex.:Lead play 5 bird, and next player must  
play bird.

2. If you don't have matching card, you may  
any card in hand. **And you take Trump card  
and set aside your Played card.**

ex. Now: played 5 bird and 8 bird, you don't  
have any bird card, so play 6 flower, and  
take trump card from 5 bird and set aside 6  
flower.

Next player must play bird or flower.

Each player plays card, check winner.

Winner is " highest Card with trump color ".

Winner takes all card played this trick and face down your aside.

\*more tactical option

Instead of face down all card, face up each lowest cards and face down others.

If you take lower than face up card, face up lower card and face down other.

repeat this process 9 times(so use all your hands).

### Scoring

each player separate cards by color and counts score.

You gain each lowest card' s nom on each color.

You gain -1pt. for each other cards.

ex.: you take 2, 5, 8 and 9 birds.

You gain 2pts. (lowest nom) and lose 3pts. (3 other cards).

so you gain -1pt. by birds.

your Fan is 8 only, so you gain 8pts. by Fan.

Record each score.

Dealer move clockwise and begin next deal.

### Game end and Winner

The game ends when each player acts dealer once.

The player having highest total score has won.

If tie, first player found First Star has won.
